past week. Hope you haven't scratched  
us, gentlemen.

There will be an entertainment at the  
M. E. church next Sunday evening by  
the Children's Mission Band. All are  
invited to attend.

Albuquerque Academy will open the

ber 2d, under new management, with G.

generous support.

Col. J. L. Bell came in from Nogal

Col. Bell is one of the greatest rustlers  
we ever had in this county. He never  
stops for anything.

J. C. Wharton, the Three Rivers pro-

school opens next month.

Red lake, situated near the head of the  
"Java beds," has a larger body of water

structure.

mine will be continued during his ab-  
sence.

### "16 TO 1"

Was Not the Score at Fort Stan-  
ton on Sunday,

BUT 23 TO 16 AGAINST US

Was Certainly Bad Enough for  
White Oaks.

Last Saturday morning the White  
Oaks ball team left home in "high feath-  
er" for Ft. Stanton to cross bats with  
the boys of Troop A, whom they had  
vanquished at the Block ranch on the  
nation's natal day with comparative  
ease. Nothing occurred, we understand,  
on the trip to the Fort to mar the  
pleasurable anticipations indulged by  
the boys save getting separated (some  
of them) from the wagon containing the  
lunch, which was distressing indeed, for  
the average base ballist has great re-  
spect for his girth measurement. Arriv-  
ing at the Fort they were met by the  
boys in blue, made royally welcome and  
given the freedom of the Fort, so to  
speak. Arrangements had previously  
been made for a grand ball in honor of  
the visitors, and in the early evening  
there assembled a gay party who "tripped  
the light, fantastic toe" until a late hour.  
Our boys speak in joyous terms of the  
occasion, and it is doubtful if they all  
returned "heart, whole and fancy free."  
Many a swain has lost his heart while  
circling in the "mazy waltz."

Sunday dawned bright but cool—just  
the day for a fine game of ball. There  
is no better grounds in the west for ball  
than the parade ground at the Fort, and  
the commandant permitted the boys to  
use it. We had no "special reporter" on  
the ground, and therefore can not give a  
detailed report, and perhaps it is just as  
well that such is the case for our own  
pride, as will be seen by the appended  
SCORE:

Scored—S. M. Wiener.

Time of Game—Two hours.

Some times there is pleasure in defeat,  
and our boys say this is one of those  
times. They say it would not have  
been a pleasure to defeat such "jolly,  
good fellows" twice in succession, for  
that would prevent a return game, and  
they are anxious to have the boys come  
here, that they may, partially at least,  
repay the hospitality so lavishly tendered  
them. It would not be safe for a  
man to speak disparagingly of the Fort  
boys in the hearing of those who were  
so kindly treated while the guests of  
Troop A.

A return game will be played here on  
the 17th inst., preceded by a grand ball  
given in honor of the Stanton club the  
night of the 16th, and we vouchsafe for  
the visitors a hearty welcome and an en-  
joyable time. Particulars in full in  
future.

Our boys speak highly of the gentle-  
manly and courteous treatment received  
from Lieuts. Yates and Wright and the  
commandant, Capt. Bonus.

### GOES TO THE GRAND JURY.

J. S. O'Neil imbibed too freely of fire-  
water Saturday and Sunday, indulged in  
shooting off a gun in the street Sunday,  
and was taken in charge Monday by  
Deputy Sheriff Mayer and arraigned  
before Justice Blanchard, who bound  
him over in the sum of \$300 to appear  
before the grand jury.

E. L. Ozanne and W. S. Prager now  
own the Evening Star mine in Jicarilla.  
They have bought out the other owners.

The Prospect mining claim in the  
Jicarillas has two shafts, one 60 and the  
other 70 feet deep. Last week the 70 ft.  
shaft produced 15 tons of a good grade  
of ore. Mr. Joe Grieshaber is pushing  
the development work on his mine and  
the result so far is very satisfactory, and  
the Prospect bids fair to be the best  
mine of the camp.

W. S. Prager and S. S. Mendenhall, of  
Roswell, came up to the Oaks last  
Thursday and returned home Tuesday.  
While here they visited the Jicarillas,  
where W. S. Prager is interested in the  
Evening Star mine. This mine is one  
of the promising claims of that camp,  
having a shaft 100 feet deep which dis-  
closes some high grade ore, and has the  
appearance of developing into a fine  
producer.

### GENERAL MINING NOTES.

In 1890 the United States produced  
over one-third of the world's steel.

Our copper production is more than  
two-fifths that of all other countries.

Both Alabama and Michigan have  
passed Pennsylvania as iron producers.

The aqua marine, a variety of beryl,  
has been discovered in North Carolina.

Almost every variety of corundum  
has been discovered in North Carolina.

Lead deposits of almost illimitable  
extent are found in Missouri and Kan-  
sas.

Brown crocidolite, known as "tiger-  
eye," exists in large quantities in Colo-  
rado.

Diamonds have been found in North  
Carolina, Virginia, California and  
Alaska.

This country produced in 1891 8,222,  
792 barrels of cement, valued at \$6,  
680,951.

Diamonds have been found in fifteen  
or twenty different localities in Cali-  
fornia.

The only quicksilver mines of conse-  
quence in this country are located in  
California.

Following is a digest of land and min-  
ing decisions furnished by W. D. Harlan,  
land and mining attorney, Washington,  
D. C.:

Coal—No vested rights are secured  
through filing a coal declaratory state-  
ment, and a sale of the land thereafter  
by the claimants, prior to final proof and  
entry, defeats his right to purchase said  
land, and an entry thereof made in his  
name must be canceled.

Mineral—As between a placer appli-  
cant for stone land and a purchaser un-  
der the timber and stone act, priority of  
assertion of a legal claim determines the  
rights of the parties.

Posting notices for sixty days suffi-  
cient, if the same period is covered by  
publication.

Application for patent or survey may  
embrace several contiguous locations.

### EVANGELISTS VISIT US.

Rev. C. J. Oxley, pastor of the M. E.  
Church at El Paso, arrived in the city  
last Friday, in company with Rev. B. B.  
Scoggins, of Bonito. On their arrival it  
was announced that there would be  
preaching by the Rev. Mr. Oxley, begin-  
ning that evening; also, that the ser-  
vices would be held in the street first,  
and at the close of the meeting in the  
street services would be held in the M.  
E. church. Those evening services were  
conducted without abatement until the  
close on Monday evening. All these  
meetings were well attended, and the elo-  
quent El Paso divine held his hearers in  
wrapt attention at all times. His stir-  
ring utterances will long be remembered  
by all who had the good fortune to hear  
him. He had an able and eloquent co-  
adjutor in the Rev. Mr. Scoggins, as well  
as the assistance of the local clergy.  
May much good result from this awak-  
ening.

This is Mr. Oxley's second visit to Lin-  
coln county, his first coming being last  
summer, when he made many friends  
and admirers in White Oaks, where he  
will always be a welcome guest.

### "A THING OF BEAUTY," ETC.

There has never been a time when this  
part of New Mexico looked more beau-  
tiful. Grass is growing as only grass  
can grow, and now come the flowers, the  
number and colors of which we can not  
give; but all who were here from 1880 to  
1883 know how grand and pleasing to the  
eye they appeared. All this transforma-  
tion of this usually dry and barren coun-  
try has been brought about by the abun-  
dant rains which we have had thus far  
this season. This is the best season for  
grass that we have had since 1883, and  
stock men have discarded their careworn  
looks for those of contentment. Verily,  
our years of drouth will soon be as a tale  
that is told.
